## STRATEGIC OVERVIEW

**New Frontier Strategy** 

**Michel Khalaf** 

## Always with you,

## building a more

confident future.

### By delivering for our stakeholders...

#### **Our People**

**Our Customers** 

#### **Our Communities**

**#13** on list of World's 25 **Best Workplaces**<sup>®</sup> in 2024<sup>1</sup>

**FORTUNE Magazine** 

By driving superior customer experience

MetLife Foundation grants<sup>3</sup>

**22** participating markets<sup>4</sup>

\$220B+

Benefits delivered to policyholders over 5 years<sup>5</sup>

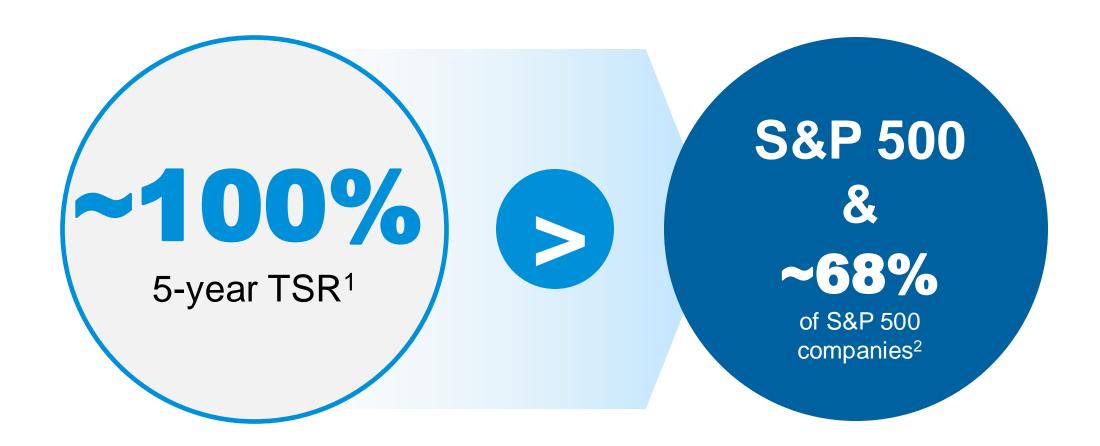

Named to America's Most Just Companies List 2024 – Top 100

Forbes | JUST Capital

#### We deliver for our shareholders

### The power of our business

#### Trusted global brand

#### **Diversified & resilient**

Leader in attractive markets

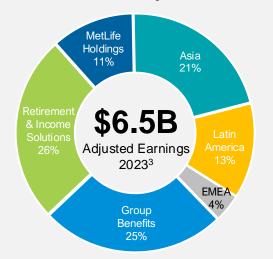

~120M

90+
of Fortune 100
companies<sup>1</sup>

40+
markets

~80% covering world premiums²

#### 'All-weather' Next Horizon strategy

#### **Focus**

Generate strong free cash flow by deploying capital and resources to the highest value opportunities

#### **Simplify**

Simplify our business to deliver *operational efficiency* and an outstanding *customer experience* 

#### **Differentiate**

Drive competitive advantage through our brand, scale, talent, and innovation

### Disciplined capital allocation focused on value<sup>1</sup>

New business<sup>2</sup>

~\$16B

•

High-teens IRRs
Short payback periods

**Acquisitions**<sup>3</sup>

~\$2B

•

Grew high-value businesses

Group, MIM, India

**Divestitures**<sup>3</sup>

~\$8B

•

Exited non-strategic businesses

P&C, Legacy block risk transfer, Russia, Argentina,

Poland, Greece

Return to shareholders

~\$22B

**3** 

Buybacks: \$14.7B

Dividends: \$7.6B

#### Consistent capital return across environments

78%

2021

2022

2023

48%

2020<sup>1</sup>

3Q2024 YTD

## Optimizing business mix to improve value to risk

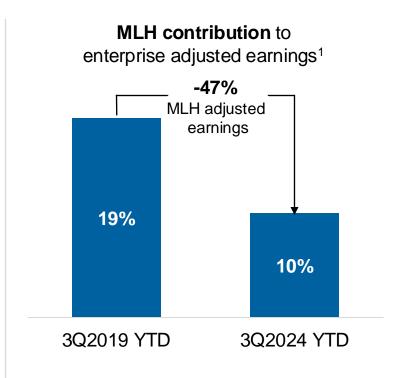

## Grew capital light businesses

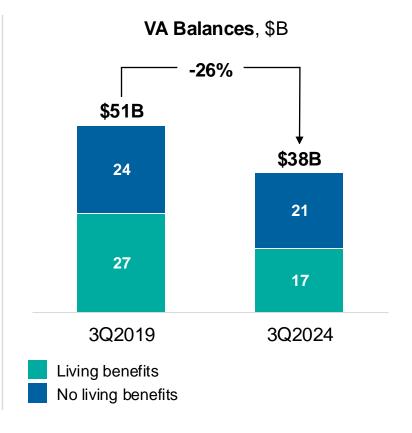

## Reduced contribution of MetLife Holdings

## Unlocking capacity to invest in our leading businesses

Reduced Direct Expense Ratio<sup>1</sup> while absorbing impact of divesting lower expense ratio businesses

\$1.2B

Created operating leverage<sup>2</sup> to reinvest in growth initiatives

## Making strong franchises even stronger

## **Expanding leadership position** in largest businesses

#### **Group Benefits**

Widened #1 position with 16% share, growing above market<sup>1</sup>

#### **Japan**

Won share to reach #4 position by growing ~2x above market<sup>2</sup>

#### Retirement

Accessed new markets and attracted significant inflows (~\$240B4 last 5 years)

#### Mexico

Widened #1 position with 17% share, growing above market<sup>3</sup>

Grew faster than the market in India, Brazil, and China<sup>5</sup>

#### **Beat all of our Next Horizon commitments**

# Accretive Returns

# Strong Free Cash Flow

Positive Operating Leverage

Deliver 12–14% Adjusted ROE<sup>1</sup>

**15.1%** 

3Q YTD 2024

Generate ~\$20B of distributable cash<sup>2</sup> over 5 years

**\$21B** 

2020-2024E

Create ~\$1B additional capacity to accelerate growth over 5 years

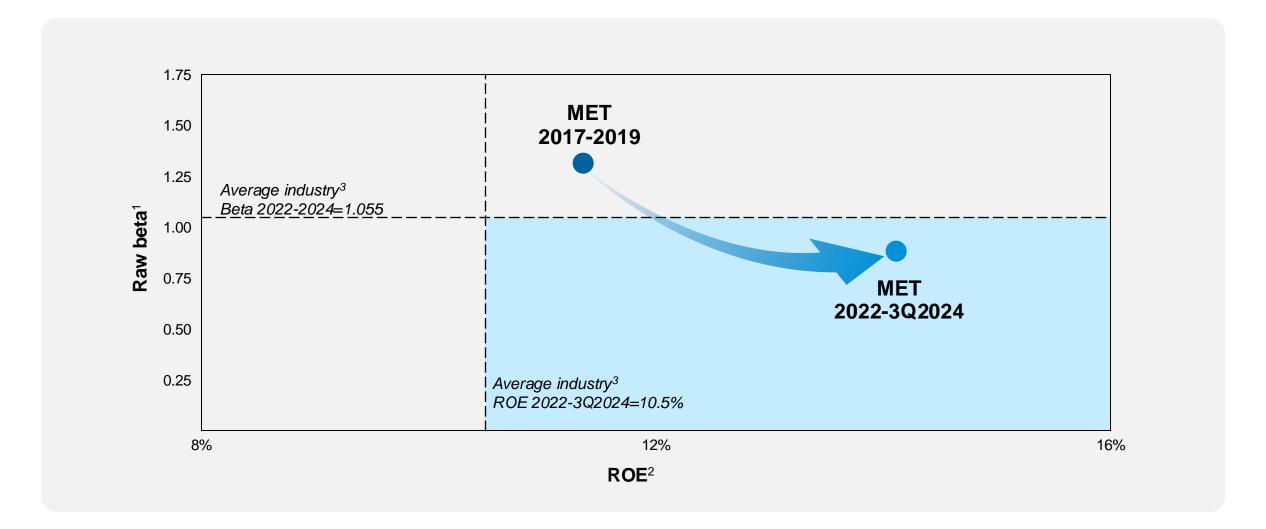

\$1.2B

2020-2024E

### MET's superior value proposition: higher returns, lower risk

### Powerful macro trends driving opportunities

Global demographic shifts ...fueling retirement, health & protection needs **Democratization of** ...expanding our addressable market financial services Al reshaping customer ...advantaging scaled players investing in technology for growth & efficiency expectations **Convergence of asset** ...creating greater opportunity for integrated business models management & insurance **Higher interest rates** ...increasing the attractiveness of fixed rate products

## How does ChatGPT<sup>SM</sup> define New Frontier?

"New Frontier refers to areas of opportunity that a company can explore for growth and innovation, pushing beyond the status quo and taking calculated risks in search of significant competitive advantages and potentially high rewards."

# MetLife NEW FRONTIER

#### **Building from a position of strength**

In highly attractive markets

With deep competitive moats

Poised to capitalize on strong tailwinds

To deliver growth and attractive returns with lower risk

## **New Frontier strategic priorities**

- 1 Extend leadership in Group Benefits
- Capitalize on unique retirement platform
- 3 Accelerate growth in asset management
- Expand in high growth international markets

# Power of **SCALE**

# Strategic DIVERSIFICATION

Distribution INNOVATION

Cutting-edge **TECHNOLOGY** 

# EXTEND LEADERSHIP IN GROUP BENEFITS

Scale, technology, and discipline will carry the day

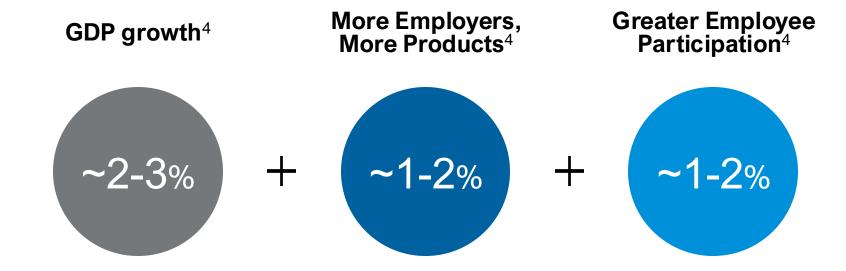

## Best positioned to win in most attractive segment of US life

Growing **1.5**x faster than market<sup>2</sup>

\$1.9B+ tech investment since 2019<sup>3</sup>

# CAPITALIZE ON UNIQUE RETIREMENT PLATFORM

Playing to our strengths in high-value segments with significant potential

## Strong platform to capitalize on trends

#### The Power of our Business

Diversified sources of liabilities

~\$240B

Inflows over last 5 years<sup>1</sup>

~\$380B

Retirement liabilities<sup>2</sup>

#### Our approach is differentiated

- **Deliberate focus on highly attractive segments:** material markets with stable, predictable growth
- That play to our strengths and discipline

Yielding very strong risk adjusted returns and capital flexibility

### Unique capabilities drive superior risk adjusted returns

#### **LIABILITY ORIGINATION**

Robust and consistent flow

#### **ASSET MANAGEMENT**

Strong track record across cycles

#### CAPITAL

Extensive access to capital

## ACCELERATE GROWTH IN ASSET MANAGEMENT

MetLife Investment Management at inflection point, on path to \$1T Total AUM

### Contributes to higher enterprise returns

\$609B

Total AUM<sup>1</sup>

\$177B

Institutional Client AUM<sup>1</sup> since 3<sup>rd</sup> party business launch

Scale across asset classes and client types

Top player across fixed income and private capital

**Multi-decade outperformance** 

The power of MetLife brings unique advantages

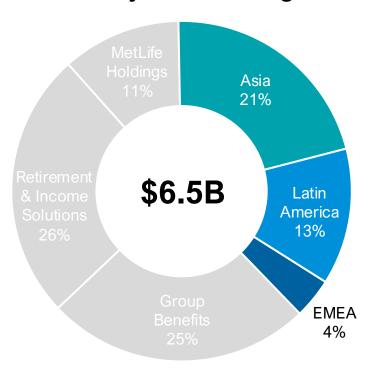

# EXPAND IN HIGH GROWTH INTERNATIONAL MARKETS

Valuable contributors today, major contributors tomorrow

# Double-digit adjusted EPS growth driven by organic growth and capital management

#### **Organic growth**

6%+

Business growth driven by topline growth and margin expansion

#### **Capital management**

4%+

High cashflow conversion

drives payout ratio

# Enhancing ROE through operational, financial and business mix initiatives

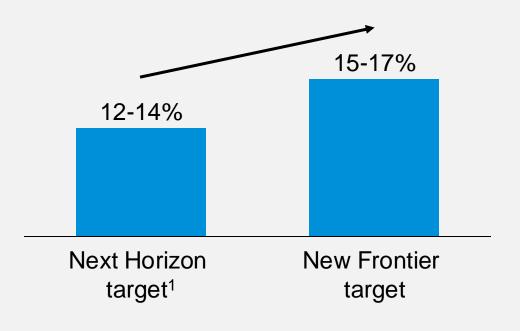

**Generating attractive New Business IRR** 

Accelerating MLH run-off

Driving expense efficiency

### **Adjusted ROE targets**

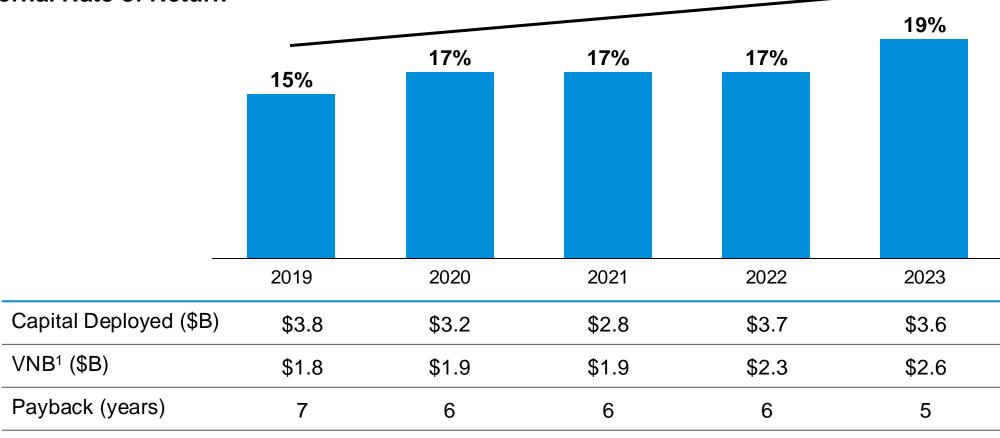

# Deploying capital at attractive IRR and shorter payback periods

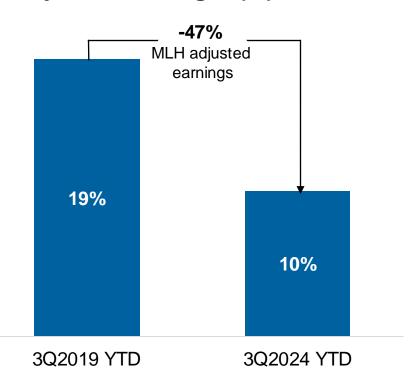

#### **Internal Rate of Return**

### Reducing contribution of MetLife Holdings

## MLH contribution to enterprise adjusted earnings<sup>1</sup> (%)

Normal run-off of business

2023 reinsurance transaction

Lower variable investment income

# **Expense discipline drives Direct Expense Ratio** improvement

 Driving operational excellence and enhancing customer experience

Leveraging technology and business process re-engineering to drive significant efficiencies

~20%

average efficiency<sup>2</sup> across major processes

Continue to free up capacity to invest in business growth

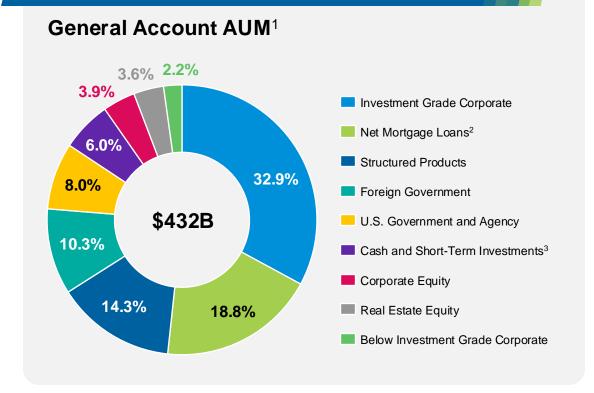

# Disciplined investment strategy supports a narrower range of outcomes

#### Diversified, high quality portfolio

Disciplined asset liability management for resiliency across market cycles

Highly diversified portfolio supported by deep expertise

Diversification and expertise enhance relative value

### Disciplined capital allocation strategy

# Support organic growth

Deploy capital to continue growing in our core businesses and high growth markets

# Strategic and disciplined M&A

Compelling M&A transactions that will further differentiate our business

# Return excess capital to shareholders

Tactical share repurchases and growing dividends per share

### Free cash flow growth is a key differentiator

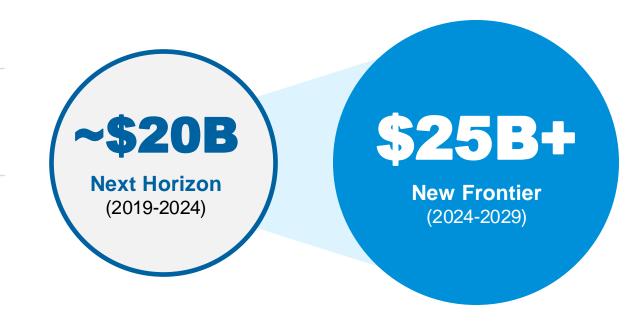

Sustained growth in free cash flow<sup>1</sup>

**Cumulative 5-year** Free cash flow<sup>1</sup> targets

High free cash flow conversion (65-75%)

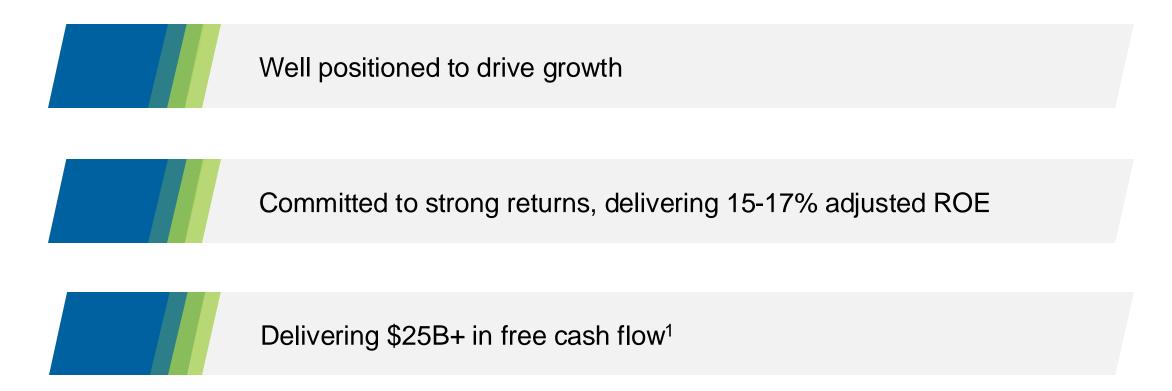

Disciplined capital allocation strategy

 Well-established track record of capital optimization

### Safe Harbor for forward-looking statements

This presentation may contain or incorporate by reference information that includes or is based upon forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements give expectations or forecasts of future events and do not relate strictly to historical or current facts. They use words and terms such as "anticipate," "are confident," "assume," "believe," "continue," "could," "estimate," "expect," "if," "intend," "likely," "may," "plan," "potential," "project," "should," "target," "will," "would," and other words and terms of similar meaning or that are otherwise tied to future performance, in each case in all derivative forms. They include statements relating to future actions, prospective services or products, future performance or results of current and anticipated services or products, future sales efforts, future expenses, the outcome of contingencies such as legal proceedings, and future trends in operations and financial results.

Many factors determine the results of MetLife, Inc., its subsidiaries and affiliates, and they involve unpredictable risks and uncertainties. Our forward-looking statements depend on our assumptions, our expectations, and our understanding of the economic environment, but they may be inaccurate and may change. MetLife, Inc. does not guarantee any future performance. Our results could differ materially from those MetLife, Inc. expresses or implies in forward-looking statements. The risks, uncertainties and other factors identified in MetLife, Inc.'s filings with the U.S. Securities and Exchange Commission, and others, may cause such differences. These factors include:

- (1) economic condition difficulties, including risks relating to interest rates, credit spreads, declining equity or debt markets, real estate, obligors and counterparties, government default, currency exchange rates, derivatives, climate change, public health and terrorism and security;
- global capital and credit market adversity;
- credit facility inaccessibility;
- (4) financial strength or credit ratings downgrades;
- (5) unavailability, unaffordability, or inadequate reinsurance, including reinsurance risks that arise from reinsurers' credit risk, and the potential shortfall or failure of risk mitigants to protect against such risks;
- (6) statutory life insurance reserve financing costs or limited market capacity;
- (7) legal, regulatory, and supervisory and enforcement policy changes;
- (8) changes in tax rates, tax laws or interpretations;
- (9) litigation and regulatory investigations;
- (10) unsuccessful efforts to meet all environmental, social, and governance standards or to enhance our sustain ability:
- (11) MetLife, Inc.'s inability to pay dividends and repurchase common stock;
- (12) MetLife, Inc.'s subsidiaries' inability to pay dividends to MetLife, Inc.;
- (13) investment defaults, downgrades, or volatility;
- (14) investment sales or lending difficulties:
- (15) collateral or derivative-related payments;
- (16) investment valuations, allowances, or impairments changes;
- (17) claims or other results that differ from our estimates, assumptions, or models;
- (18) global political, legal, or operational risks;
- (19) business competition;
- (20) technological changes:
- (21) catastrophes;
- (22) climate changes or responses to it:
- (23) deficiencies in our closed block:
- (24) goodwill or other asset impairment, or deferred income tax asset allowance;
- (25) impairment of VOBA, value of distribution agreements acquired or value of customer relationships acquired:
- (26) product guarantee volatility, costs, and counterparty risks;
- (27) risk management failures:
- (28) insufficient protection from operational risks:
- (29) failure to protect confidentiality and integrity of data or other cybersecurity or disaster recovery failures:
- (30) accounting standards changes:
- (31) excessive risk-taking:
- (32) marketing and distribution difficulties;
- (33) pension and other postretirement benefit assumption changes;
- (34) inability to protect our intellectual property or avoid infringement claims:
- (35) acquisition, integration, growth, disposition, or reorganization difficulties;
- (36) Brighthouse Financial, Inc. separation risks;
- (37) MetLife, Inc.'s Board of Directors influence over the outcome of stockholder votes through the voting provisions of the MetLife Policyholder Trust; and
- (38) legal- and corporate governance-related effects on business combinations.

MetLife, Inc. does not undertake any obligation to publicly correct or update any forward-looking statement if MetLife, Inc. later becomes aware that such statement is not likely to be achieved. Please consult any further disclosures MetLife, Inc. makes on related subjects in subsequent reports to the U.S. Securities and Exchange Commission.

### Any references in this presentation (except in this Explanatory Note on Non-GAAP and Other Financial Information and Reconciliations) to:

(i) adjusted earnings;
(ii) adjusted earnings per share;
(iii) adjusted return on equity; and
(iv) direct expense ratio.

### Should be read as, respectively:

- (i) adjusted earnings available to common shareholders, excluding total notable items:
- (ii) adjusted earnings available to common shareholders per diluted common share, excluding total notable items;
- (iii) adjusted return on MetLife, Inc.'s common stockholders' equity, excluding total notable items (excludes AOCI other than FCTA); and
- iv) direct expense ratio, excluding total notable items related to direct expenses and pension risk transfers.

In this presentation, MetLife presents certain measures of its performance that are not calculated in accordance with accounting principles generally accepted in the United States of America (GAAP). MetLife believes that these non-GAAP financial measures enhance the understanding for MetLife and its investors of MetLife's performance by highlighting the results of operations and the underlying profitability drivers of the business.

Financial results in this presentation for 2021-2024 reflect LDTI accounting, pursuant to Financial Accounting Standards Board Accounting Standards Update No. 2018-12, which became effective on January 1, 2023. Financial results for 2019 and 2020 are on a pre-LDTI basis unless otherwise noted.

The following non-GAAP financial measures should not be viewed as substitutes for the most directly comparable financial measures calculated in accordance with GAAP:

### Non-GAAP financial measures:

(i) total adjusted revenues;
(ii) total adjusted expenses;
(iii) adjusted premiums, fees and other revenues;
(iv) adjusted premiums, fees and other revenues, excluding PRT;
(v) adjusted net investment income;
(vi) adjusted capitalization of deferred policy acquisition costs (DAC);
(vii) adjusted earnings available to common shareholders;
(viii) adjusted earnings available to common shareholders, excluding total notable items;

### **Comparable GAAP financial measures:**

- (i) total revenues:
- (ii) total expenses;
- (iii) premiums, fees and other revenues;
- (iv) premiums, fees and other revenues;
- (v) net investment income:
- (vi) capitalization of DAC;
- (vii) net income (loss) available to MetLife, Inc.'s common shareholders;
- (viii) net income (loss) available to MetLife, Inc.'s common shareholders;

The following non-GAAP financial measures should not be viewed as substitutes for the most directly comparable financial measures calculated in accordance with GAAP (continued):

### Non-GAAP financial measures:

- (ix) adjusted earnings available to common shareholders per diluted common share;
- (x) adjusted earnings available to common shareholders, excluding total notable items, per diluted common share;
- (xi) adjusted return on equity;
- (xii) adjusted return on equity, excluding AOCI other than FCTA;;
- (xiii) adjusted return on equity, excluding total notable items (excludes AOCI other than FCTA);
- (xiv) investment portfolio gains (losses);
- (xv) derivative gains (losses);
- (xvi) total MetLife, Inc.'s common stockholders' equity, excluding AOCI other than FCTA;
- (xvii) total MetLife, Inc.'s common stockholders' equity, excluding total notable items (excludes AOCI other than FCTA):
- (xviii) book value per common share, excluding AOCI other than FCTA;
- (xix) free cash flow of all holding companies;
- (xx) adjusted other expenses;
- (xxi) adjusted other expenses, net of adjusted capitalization of DAC;
- (xxii) adjusted other expenses, net of adjusted capitalization of DAC, excluding total notable items related to adjusted other expenses;
- (xxiii) adjusted expense ratio;
- (xxiv) adjusted expense ratio, excluding total notable items related to adjusted other expenses and PRT;
- (xxv) direct expenses;
- (xxvi) direct expenses, excluding total notable items related to direct expenses;
- (xxvii) direct expense ratio; and
- (xxviii) direct expense ratio, excluding total notable items related to direct expenses and PRT.

### **Comparable GAAP financial measures:**

- (ix) net income (loss) available to MetLife, Inc.'s common shareholders per diluted common share;
- net income (loss) available to MetLife, Inc.'s common shareholders per diluted common share;
- (xi) return on equity;
- (xii) return on equity;
- (xiii) return on equity;
- (xiv) net investment gains (losses);
- (xv) net derivative gains (losses);
- (xvi) total MetLife, Inc.'s stockholders' equity;
- (xvii) total MetLife, Inc.'s stockholders' equity;
- (xviii) book value per common share:
- (xix) MetLife, Inc. (parent company only) net cash provided by (used in) operating activities:
- (xx) other expenses;
- (xxi) other expenses, net of capitalization of DAC;
- (xxii) other expenses, net of capitalization of DAC;
- (xxiii) expense ratio;
- (xxiv) expense ratio;
- (xxv) other expenses;
- (xxvi) other expenses;
- (xxvii) expense ratio; and
- (xxviii) expense ratio.

Any of these financial measures shown on a constant currency basis reflect the impact of changes in foreign currency exchange rates and are calculated using the average foreign currency exchange rates for the most recent period. As a result, comparable prior period amounts are updated each period to reflect the most recent period average foreign currency exchange rates.

Reconciliations of these non-GAAP financial measures to the most directly comparable GAAP financial measures are included in this presentation and in other materials available on the MetLife, Inc. Investor Relations webpage at www.metlife.com. Reconciliations of these non-GAAP financial measures to the most directly comparable GAAP financial measures are not accessible on a forward-looking basis because we believe it is not possible without unreasonable effort to provide other than a range of net investment gains and losses and net derivative gains and losses, which can fluctuate significantly within or outside the range and from period to period and may have a material impact on net income.

MetLife's definitions of non-GAAP and other financial measures discussed in this presentation may differ from those used by other companies:

#### Adjusted earnings and related measures

- adjusted earnings;
- adjusted earnings available to common shareholders;
- adjusted earnings available to common shareholders on a constant currency basis;
- adjusted earnings available to common shareholders, excluding total notable items;
- adjusted earnings available to common shareholders, excluding total notable items, on a constant currency basis;
- adjusted earnings available to common shareholders per diluted common share;
- adjusted earnings available to common shareholders on a constant currency basis per diluted common share;
- · adjusted earnings available to common shareholders, excluding total notable items per diluted common share; and
- adjusted earnings available to common shareholders, excluding total notable items, on a constant currency basis per diluted common share.

These measures are used by management to evaluate performance and allocate resources. Consistent with GAAP guidance for segment reporting, adjusted earnings and components of, or other financial measures based on, adjusted earnings are also MetLife's GAAP measures of segment performance. Adjusted earnings and other financial measures based on adjusted earnings are also the measures by which MetLife senior management's and many other employees' performance is evaluated for the purposes of determining their compensation under applicable compensation plans. Adjusted earnings and other financial measures based on adjusted earnings allow analysis of MetLife's performance relative to its business plan and facilitate comparisons to industry results.

Adjusted earnings is defined as adjusted revenues less adjusted expenses, net of income tax. Adjusted earnings available to common shareholders is defined as adjusted earnings less preferred stock dividends.

### Adjusted revenues and adjusted expenses

These financial measures, along with the related adjusted premiums, fees and other revenues, focus on our primary businesses principally by excluding the impact of (i) market volatility which could distort trends, (ii) asymmetrical and non-economic accounting, and (iii) revenues and costs related to divested businesses, non-core products and certain entities required to be consolidated under GAAP. Also, these measures exclude results of discontinued operations under GAAP.

Market volatility can have a significant impact on the Company's financial results. Adjusted earnings excludes net investment gains (losses), net derivative gains (losses), market risk benefits remeasurement gains (losses) and goodwill impairments. Further, policyholder benefits and claims exclude (i) changes in the discount rate on certain annuitization guarantees accounted for as additional liabilities and (ii) market value adjustments.

Asymmetrical and non-economic accounting adjustments are made to the line items indicated in calculating adjusted earnings:

- Net investment income includes earned income on derivatives and amortization of premium on derivatives that are hedges of investments or that are used to replicate certain investments, but do not qualify for hedge accounting treatment ("Investment hedge adjustments").
- Other revenues include settlements of foreign currency earnings hedges and exclude asymmetrical accounting associated with in-force reinsurance.
- Policyholder benefits and claims excludes (i) amortization of basis adjustments associated with de-designated fair value hedges of future policy benefits, (ii) inflation-indexed benefit adjustments associated with contracts backed by inflation-indexed investments, (iii) asymmetrical accounting associated with in-force reinsurance, and (iv) non-economic losses incurred at contract inception for certain single premium annuity business. These losses are amortized into adjusted earnings within policyholder benefits and claims over the estimated lives of the contracts.
- Interest credited to policyholder account balances excludes amounts associated with periodic crediting rate adjustments based on the total return of a contractually referenced pool of assets and other pass-through adjustments and asymmetrical accounting associated with in-force reinsurance.

Divested businesses are those that have been or will be sold or exited by MetLife but do not meet the discontinued operations criteria under GAAP. Divested businesses also include the net impact of transactions with exited businesses that have been eliminated in consolidation under GAAP and costs relating to businesses that have been or will be sold or exited by MetLife that do not meet the criteria to be included in results of discontinued operations under GAAP.

Other adjustments are made to the line items indicated in calculating adjusted earnings:

- Net investment income and interest credited to policyholder account balances excludes certain amounts related to contractholder-directed equity securities ("Unit-linked contract income") and ("Unit-linked contract costs").
- o Other revenues include fee revenue on synthetic guaranteed interest contracts ("GICs") accounted for as freestanding derivatives.
- Other revenues exclude and other expenses include fees received in connection with services provided under transition service agreements.
- Other expenses exclude (i) implementation of new insurance regulatory requirements and other costs, and (ii) acquisition, integration and other related costs. Other expenses include (i) deductions for net income attributable to noncontrolling interests, and (ii) benefits accrued on synthetic GICs accounted for as freestanding derivatives.

Adjusted earnings also excludes the recognition of certain contingent assets and liabilities that could not be recognized at acquisition or adjusted for during the measurement period under GAAP business combination accounting guidance.

The tax impact of the adjustments mentioned above are calculated net of the U.S. or foreign statutory tax rate, which could differ from MetLife's effective tax rate. Additionally, the provision for income tax (expense) benefit also includes the impact related to the timing of certain tax credits, as well as certain tax reforms.

In addition, adjusted earnings available to common shareholders excludes the impact of preferred stock redemption premium, which is reported as a reduction to net income (loss) available to MetLife, Inc.'s common shareholders.

#### Investment portfolio gains (losses) and derivative gains (losses)

These are measures of investment and hedging activity. Investment portfolio gains (losses) principally excludes amounts that are reported within net investment gains (losses) but do not relate to the performance of the investment portfolio, such as gains (losses) on sales and divestitures of businesses, as well as investment portfolio gains (losses) of divested businesses. Derivative gains (losses) principally excludes earned income on derivatives and amortization of premium on derivatives, where such derivatives are either hedges of investments or are used to replicate certain investments, and where such derivatives do not qualify for hedge accounting. This earned income and amortization of premium is reported within adjusted earnings and not within derivative gains (losses).

### Return on equity and related measures

- Total MetLife, Inc.'s common stockholders' equity, excluding AOCI other than FCTA: Total MetLife, Inc.'s common stockholders' equity, excluding the net unrealized investment gains (losses), future policy benefits discount rate remeasurement gains (losses), market risk benefits instrument-specific credit risk remeasurement gains (losses), defined benefit plans adjustment components of AOCI, net of income tax.
- Total MetLife, Inc.'s common stockholders' equity, excluding total notable items (excludes AOCI other than FCTA): Total MetLife, Inc.'s common stockholders' equity, excluding the net unrealized investment gains (losses), future policy benefits discount rate remeasurement gains (losses), market risk benefits instrument-specific credit risk remeasurement gains (losses), defined benefit plans adjustment components of AOCI, and total notable items, net of income tax.
- Return on MetLife, Inc.'s common stockholders' equity: net income (loss) available to MetLife, Inc.'s common shareholders divided by MetLife, Inc.'s average common stockholders' equity:
- Adjusted return on MetLife, Inc.'s common stockholders' equity: adjusted earnings available to common shareholders divided by MetLife, Inc.'s average common stockholders' equity.
- Adjusted return on MetLife, Inc.'s common stockholders' equity, excluding AOCI other than FCTA: adjusted earnings available to common shareholders divided by MetLife, Inc.'s average common stockholders' equity, excluding AOCI other than FCTA.
- Adjusted return on MetLife, Inc.'s common stockholders' equity, excluding total notable items (excludes AOCI other than FCTA): adjusted earnings available to common shareholders, excluding total notable items, divided by MetLife, Inc.'s average common stockholders' equity, excluding total notable items (excludes AOCI other than FCTA).

The above measures represent a level of equity consistent with the view that, in the ordinary course of business, we do not plan to sell most investments for the sole purpose of realizing gains or losses.

### Expense ratio, direct expense ratio, adjusted expense ratio and related measures

- Expense ratio: other expenses, net of capitalization of DAC, divided by premiums, fees and other revenues.
- Direct expense ratio: adjusted direct expenses, divided by adjusted premiums, fees and other revenues. Direct expenses are comprised of employee-related costs, third-party staffing costs, and general
  and administrative expenses.
- Direct expense ratio, excluding total notable items related to direct expenses and PRT: adjusted direct expenses, excluding total notable items related to direct expenses, divided by adjusted premiums, fees and other revenues, excluding PRT.
- Adjusted expense ratio: adjusted other expenses, net of adjusted capitalization of DAC, divided by adjusted premiums, fees and other revenues.
- Adjusted expense ratio, excluding total notable items related to adjusted other expenses and PRT: adjusted other expenses, net of adjusted capitalization of DAC, excluding total notable items related to adjusted other expenses, divided by adjusted premiums, fees and other revenues, excluding PRT.

<u>Total Assets Under Management</u> ("Total AUM") is comprised of GA AUM plus Institutional Client AUM (each, as defined below).

### **General Account AUM** ("GA AUM")

GA AUM is used by MetLife to describe assets in its general account ("GA") investment portfolio. GA AUM is stated at estimated fair value and is comprised of GA total investments, the portion of the GA investment portfolio classified within assets held-for-sale, and cash and cash equivalents, excluding policy loans, contractholder-directed equity securities, fair value option securities, mortgage loans originated for third parties, assets subject to reinsurance arrangements with third-party reinsurers, and certain other invested assets. Mortgage loans, net of mortgage loans originated for third parties ("net mortgage loans") (including commercial ("net commercial mortgage loans"), agricultural ("net agricultural mortgage loans") and residential mortgage loans) and real estate equity (including real estate and real estate joint ventures) included in GA AUM (at net asset value, net of deduction for encumbering debt) have been adjusted from carrying value to estimated fair value. Classification of GA AUM by sector is based on the nature and characteristics of the underlying investments which can vary from how they are classified under GAAP. Accordingly, the underlying investments within certain real estate and real estate joint ventures that are primarily net commercial mortgage loans (at net asset value, net of deduction for encumbering debt) have been reclassified to exclude them from real estate equity and include them as net commercial mortgage loans.

#### Institutional Client AUM

Institutional Client AUM is comprised of SA AUM plus Reinsurance AUM plus TP AUM (each, as defined below). MetLife Investment Management. LLC and certain of its affiliates ("MIM") manages Institutional Client AUM in accordance with client guidelines contained in each investment advisory agreement ("Mandates").

- Separate Account AUM ("SA AUM") is comprised of separate account investment portfolios of MetLife insurance companies, which are managed by MIM and included in MetLife, Inc.'s consolidated financial statements at estimated fair value.
- Reinsurance AUM is comprised of GA investments subject to reinsurance arrangements with third-party reinsurers, which are managed by MIM and are generally included in MetLife, Inc.'s consolidated financial statements at estimated fair value.
- Third-Party AUM ("TP AUM") is comprised of non-proprietary assets managed by MIM on behalf of unaffiliated/third-party clients, which are stated at estimated fair value. Such non-proprietary assets are owned by unaffiliated/third-party clients and, accordingly, are generally not included in MetLife, Inc.'s consolidated financial statements.

#### Asia GA AUM and related measures

Asia GA AUM is used by MetLife to describe assets in its Asia GA investment portfolio. Asia GA AUM is stated at estimated fair value and is comprised of Asia GA total investments, the portion of the Asia GA investment portfolio classified within assets held-for-sale and cash and cash equivalents, excluding policy loans, contractholder-directed equity securities, fair value option securities, mortgage loans originated for third parties, assets subject to reinsurance arrangements with third-party reinsurers, and certain other invested assets. Mortgage loans, net of mortgage loans originated for third parties ("net mortgage loans") (including commercial ("net commercial mortgage loans"), agricultural ("net agricultural mortgage loans") and residential mortgage loans) and real estate equity (including real estate and real estate joint ventures) included in Asia GA AUM (at net asset value, net of deduction for encumbering debt) have been adjusted from carrying value to estimated fair value. At the segment level, intersegment balances (intercompany activity, primarily related to investments in subsidiaries, that eliminate at the MetLife consolidated level) are excluded from Asia GA AUM.

Asia GA AUM (at amortized cost) excludes the following adjustments: (i) unrealized gain (loss) on investments carried at estimated fair value and (ii) adjustments from carrying value to estimated fair value on net mortgage loans (including net commercial mortgage loans, net agricultural mortgage loans and residential mortgage loans) and real estate and real estate joint ventures. Asia GA AUM (at amortized cost) is presented net of related allowance for credit loss.

#### Statistical sales information:

- Group Benefits: calculated using 10% of single premium deposits and 100% of annualized full-year premiums and fees from recurring premium policy sales of all products.
- Retirement and Income Solutions: calculated using 10% of single premium deposits and 100% of annualized full-year premiums and fees only from recurring premium policy sales of specialized benefit resources and corporate-owned life insurance.
- Latin America, Asia and EMEA: calculated using 10% of single-premium deposits (mainly from retirement products such as variable annuity, fixed annuity and pensions), 20% of single-premium deposits from credit insurance and 100% of annualized full-year premiums and fees from recurring-premium policy sales of all products (mainly from risk and protection products such as individual life, accident & health and group).

Sales statistics do not correspond to revenues under GAAP, but are used as relevant measures of business activity.

### The following additional information is relevant to an understanding of MetLife's performance results and outlook:

- Volume growth, as discussed in the context of business growth, is the period over period percentage change in adjusted earnings available to common shareholders attributable to adjusted premiums, fees and other revenues and assets under management levels, applying a model in which certain margins and factors are held constant. The most significant of such items are underwriting margins, investment margins, changes in equity market performance, expense margins and the impact of changes in foreign currency exchange rates.
- Holding company cash and liquid assets are held by MetLife, Inc. collectively with other MetLife holding companies and include cash and cash equivalents, short term investments and publicly traded securities excluding assets that are pledged or otherwise committed. Assets pledged or otherwise committed include amounts received in connection with securities lending, repurchase agreements, derivatives, regulatory deposits, the collateral financing arrangement, funding agreements and secured borrowings, as well as amounts held in the closed block.
- MetLife uses a measure of free cash flow to facilitate an understanding of its ability to generate cash for reinvestment into its businesses or use in non-mandatory capital actions. MetLife defines free cash flow as the sum of cash available at MetLife's holding companies from dividends from operating subsidiaries, expenses and other net flows of the holding companies (including capital contributions to subsidiaries), and net contributions from debt to be at or below target leverage ratios. This measure of free cash flow is prior to capital actions, such as common stock dividends and repurchases, debt reduction and mergers and acquisitions. Free cash flow should not be viewed as a substitute for net cash provided by (used in) operating activities calculated in accordance with GAAP. The free cash flow ratio is typically expressed as a percentage of annual adjusted earnings available to common shareholders.
- Notable items reflect the unexpected impact of events that affect MetLife's results, but that were unknown and that MetLife could not anticipate when it devised its business plan. Notable items also include certain items regardless of the extent anticipated in the business plan, to help investors have a better understanding of MetLife's results and to evaluate and forecast those results. Notable items represent a positive (negative) impact to adjusted earnings available to common shareholders.
- We refer to observable forward yield curves as of a particular date in connection with making our estimates for future results. The observable forward yield curves at a given time are based on implied future interest rates along a range of interest rate durations. This includes the 10-year U.S. Treasury rate which we use as a benchmark rate to describe longer-term interest rates used in our estimates for future results.

# Reconciliation of Net Income (Loss) Available to MetLife, Inc.'s Common Shareholders to Adjusted Earnings Available to Common Shareholders
